[Deliverable](#) [7]

ASSET members have approved and released the first three deliverables accomplished by the project. The [first one](#) [8] is the report of the kick-off meeting, whose aim was to create the basis for a smooth project development, to

review the overall Project timetable and to fine tune the work of the Consortium. The second one [9] is the communication strategy, which represents a fundamental step towards the convergence between Science and Society in epidemics and total pandemics that constitutes a significant goal of the ASSET project. The third one [10] is the report about the conceptualisation and the creation of the ASSET brand.
