After three years of activity, TELL ME project [10] has reached its conclusion and the conference [10] held in Venice on last December 4-5 was the occasion to present the project's main products. Several members of the TELL ME consortium are now part of the ASSET project [11], which will pick up the torch and take advantage of the knowledge, the experience and the results gathered by TELL ME to develop a comprehensive strategy for a better response to the threats represented by infectious diseases.
