MMLAP and other EU Projects

AsiaFluCap

Health system analysis to support capacity development in response to the threat of pandemic influenza in Asia

BEWATER

Making society an active participant in water adaptation to global change

CASI

Public Participation in Developing a Common Framework for Assessment and Management of Sustainable Innovation

CIMULACT

Engaging all of Europe in shaping a desirable and sustainable future

DARWIN

Expect the unexpected and know how to respond

DRIVER

Driving innovation in crisis management for European resilience

ECOM

Effective communication in outbreak management: development of an evidence-based tool for Europe

EDEN

Solutions to improve CBRNe resilience

EPISOUTH

Network for Communicable Disease Control in Southern Europe and Mediterranean Countries

EPIWORK

Developing the framework for an epidemic forecast infrastructure

EUPHARE

Strengthening of the national surveillance system for communicable diseases

EUROHEP

Surveillance of vaccine preventable hepatitis

EuroMOMO

European monitoring of excess mortality for public health action

EURONHID

European network for highly infectious disease

EUVAC.NET

Dedicated surveillance network for surveillance and control of vaccine preventable diseases in the EU

FLUMODCONT

Modelling the spread of pandemic influenza and strategies for its containment and mitigation

FLURESP

Cost-effectiveness assessment of european influenza human pandemic alert and response strategies

GAP2

Bridging the gap between science, stakeholders and policy makers

HProImmune

Promotion of immunization for health professionals in Europe

INPROFOOD

Towards inclusive research programming for sustainable food innovations

JA-CHRODIS

Addressing chronic diseases and healthy ageing across the life cycle

M-Eco

Medical ecosystem ? personalized event-based surveillance

MAPPING

Studying the many and varied economic, social, legal and ethical aspects of the recent developments on the Internet, and their consequences for the individual and society at large

MARINA

Get involved in the responsible marine research and innovation

PACITA

Knowledge-based policy-making on issues involving science, technology and innovation, mainly based upon the practices in Parliamentary Technology Assessment

PANDEM

Assessment of the current pandemic preparedness and response tools, systems and practice at national, EU and global level in priority areas

PE2020

Analysis of innovative public engagement tools and instruments for dynamic governance in

the field of Science in Society

PERARES

Public Engagement with Research And Research Engagement with Society

PHEME

Computing Veracity ? the Fourth Challenge of Big Data

PREPARE

Providing infrastructure, co-ordination and integration of existing clinical research networks on epidemics and pandemics

PROMOVAX

Promote vaccinations among migrant population in Europe

R&DIALOGUE

Creating mechanisms for effectively tackling the scientific and technology related challenges faced by society

RESPIRE

Improve the quality of indoor air, keeping it free from radon

SATORI

Improving respect of ethics principles and laws in research and innovation, in line with the evolution of technologies and societal concerns

SECURING CITIES AGAINST GLOBAL PANDEMICS

Investigating how cities in the West securitise against global pandemics

SEiSMiC

Creating a structured dialogue and mutual learning with citizens and urban actors by setting up National Networks in 10 countries across Europe

SIS CATALYST

Identifying how children can be change agents in the Science and Society relationship

SYN-ENERGENE

Establishing an open dialogue between stakeholders concerning synthetic biology's potential benefits and risks

TELLME

Transparent communication in Epidemics: Learning Lessons from experience, delivering effective Messages, providing Evidence
