*Athena Linos, European Institute of Women's
Health, Alberto d'Onofrio*

Athena Linos, President of the Institute of Preventive Medicine Environmental and Occupational Health in Athens, discusses about the Science-with-and-for-Society approach in epidemics and pandemics. Gender issues in pandemics and epidemics are discussed by the European Institute of Women's Health in Ireland. Finally, Alberto d'Onofrio, from the International Prevention Research Institute in Lyon, talks about how to

model epidemics and the impact of human behaviour on them.
