The **[World Immunization Week](#)** ^[14], which will be held from 24-30 April 2015, will signal a renewed global, regional, and national effort to accelerate action to increase awareness and demand for immunization by communities, and improve vaccination delivery services. This year's campaign focuses on closing the immunization gap and reaching equity in immunization levels as outlined in the [Global Vaccine Action Plan](#) ^[15], which is a framework to prevent millions of deaths by 2020 through universal access to vaccines for people in all communities.
