European Immunization Week (EIW) is celebrated across the WHO European Region every April. It aims to raise awareness of the importance of immunization for people's health and well-being. Activities in 2016 will focus on the progress and challenges in the Region's concerted effort to eliminate measles and rubella. EIW is going to be celebrated on 24-30 April 2016.

For further information visit the site of [WHO Regional Office of Europe](#) ^[7].
