DMI - Data Mining International SA

Country:

Switzerland

Website:

<http://www.datamining-international.com/>

Data Mining International SA (DMI) is an independent international research agency specialized in innovative disease management strategies in public health, data mining and knowledge discovery from large databases, advanced simulation modelling for decision-making in public health, risk assessment for health planning, multi-criteria analyses, health technology assessment and business modelling innovation. DMI has managed international projects worldwide for the World Health Organization (WHO) and is very active in European research. DMI is currently leading or is involved in several projects funded by the European Commission (FP7-ECHOUTCOME, FP7 SEMANTIC HEALTH NET, SANCO FLURESP, 2020-VALUEHEALTH), and acts as sub-contractor in IMI (EHR4CR) and SANCO projects (EGOHID). DMI brings innovative solutions to international and

national health organizations from the public and private sectors, including academia, public health and regulatory organizations, and other interest groups and stakeholders.
