Vaksinko: an informational campaign about vaccines in Bulgaria

Bulgaria has a long immunization experience. Immunizations against tuberculosis, polio, diphtheria, pertussis, tetanus, measles, mumps, rubella, and hepatitis B have been mandatory for decades as well as recently introduced immunizations against pneumococcal diseases and Haemophilus infl.b infections too. Additionally, HPV vaccine was intensively introduced as recommended for 12-year old girls within a national vaccination campaign for prevention of HPV - caused cancers.

The health mediation in Bulgaria

The Bulgarian health mediator model was developed based on the experience of the Dutch Institute of Public Health and on the Romanian model of health mediators, which was presented by the Romani CRISS Foundation and the Romanian Ministry of Health.
