WP9 will set up a strategy for ensuring post-action sustainability and to give future participants, wishing to pursue ASSET, the means to efficiently implement ASSET recommendations. **WP9** objectives are:

1. development of a plan for financial sustainability of the action after completion of the EC grant;
2. the organization of a brokerage event that mobilize ASSET consortium and external stakeholders in order to identify concrete means to pursue and implement the project post-action.

Given that the project will be implemented in the beginning of H2020, we will try to align ASSET legacy to H2020 in order to increase ASSET potentialities to be elaborated on, "captured" and assessed during monitoring and mid-term evaluation activities in H2020.
